

ScaleTrac

The Standard of Excellence in
Scale Ticketing Software

Scale Ticketing Software you
can **DEPEND ON**

ScaleTrac isn't just software; it's a solution tailored for the agricultural industry, designed to handle the unique challenges of agribusiness with user-friendly tools and functionality. From data tracking to field-specific insights, we make it easy for you to manage every aspect of your operations.

- **Real People, Real Support:** Reach our dedicated support team any time with a call – no automated lines, just real people ready to help.
- **Precise Scale Ticketing:** Easily generate accurate scale tickets to track weights and measurements.
- **Dry Charges & Shrink Calculations:** Save time and reduce errors with automatic calculations for dry charges and shrink.
- **Gross and Net Bushels Calculations:** Effortlessly calculate gross and net bushels for your operations. Not limited to other units of measure.
- **Splits:** Manage your splits seamlessly and on the fly with tools that simplify the division of profits and yield.
- **Scale & Moisture Meter Integration:** ScaleTrac integrates effortlessly with any scale indicator and moisture meter, providing you with a unified system for all your weighing and moisture needs.
- **Freight Charge Tracking:** Keep track of freight charges with ease, simplifying logistics and cost tracking in a single solution.
- **Reporting:** Access a wide variety of reports with customizable filters.

“Vertical Software has been a great
Partner for our software needs”
